Commissioner for Patents

The reply filed on 18 July 2003 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant's statement that all the main elements and their relationships to one another are adequately described in the amended claims is not responsive as it does not show where the specification reasonably conveys to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant gives no clear description of how content is decrypted, or how it is used. In claim 32, applicant provides no clear connection to the content supplier or other elements of the other independent claims. Further, applicant provides no support for the added claims. See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Applicant claims that the amendment includes no new matter. Applicant is required to show where support for the amendments to the claims and the subject matter of the added claims is found in the original disclosure.
